

January 2016 Handgun Rule Amendments

- 2.2.1.5 If a COF has a passageway visibly delineated by fault lines and/or a clearly demarcated shooting area, any competitor who takes a shortcut by stepping on the ground outside the passageway and/or shooting area will incur one procedural penalty for each shot fired after beginning the shortcut.
- 4.3.3.2 Metal plates do not recognize power and are not subject to calibration or calibration challenges. ~~If a metal plate has been adequately and directly hit (i.e. with a full bullet diameter) but it fails to fall or overturn, a Range Officer may declare range equipment failure and order the competitor to reshoot the course of fire, after the faulty plate has been rectified.~~
- 4.3.3.3 ~~Metal plates which fail to fall or overturn when initially hit, but which fall or overturn when hit with a subsequent shot, are not subject to a reshoot.~~
- 4.3.3.3 Metal plates must not be used exclusively in a course of fire. At least one authorized scoring paper target or scoring popper (in addition to any paper or metal no-shoots), must be included in each course of fire.
