JLD ENTERPRISES PTR-91'S

Going, going... gone!!! For those of you who love the HK91 or G3, we have something very special !!! Going through our warehouse, we found a hand full of JLD Enterprises PTR-91's, 308 rifles, I could not believe my eyes...What a find!!! For the collector, this few new rifles are a must. As we all know JLD was the American Company out of Farmington Connecticut that made the PTR-91 on HK machinery and fixtures, giving us the opportunity to own a jewel in accuracy and craftsmanship. Some even called it "better than the original". After a few years of production the Company was sold and the new Company change it's name to PTR91. From that point on, the receivers were no longer stamped with the famous JLD Enterprises name. Now you can own a piece of American Firearms Manufacturing History and have a firearm that will only go up in value as time goes by. The few rifles we have are new in their original case and some have the aluminum handguard while just one or two have the plastic black thin handguard of the very early production. This will be a first come first serve sale and they will go fast!!! Pickup your phone and call now before they are gone. As far as we know this are the only JLD Enterprises new rifles in existence that are for sale. Most people who already own one have them tucked away in their safe with other valuable collectors firearms. You might be the lucky person who is able to get one!! **\$1295.00 GUN249**
